

SAFETY DATA SHEET E.S.P. EVANS SPRAY POLISH AEROSOL

| SECTION 1: Identification of the substance/mixture and of the company/undertaking | |
|---|---|
| 1.1. Product identifier | |
| Product name | E.S.P. EVANS SPRAY POLISH AEROSOL |
| Product number | C052 EV |
| Internal identification | Janitorial |
| 1.2. Relevant identified uses of | f the substance or mixture and uses advised against |
| Identified uses | Aerosol furniture polish. |
| 1.3. Details of the supplier of t | he safety data sheet |
| Supplier | |
| | Evans Vanodine International |
| | Brierley Road |
| | Walton Summit Preston. UK. PR5 8AH |
| | Tel: 01772 322 200 |
| | Fax: 01772 626 000 |
| | qclab@evansvanodine.co.uk |
| 1.4. Emergency telephone nur | mber |
| Emergency telephone | New Safety Data Sheets - 8.30am to 4.45pm - 01772 322 200 - Mon to Fri. (Also available |
| | 24/7 from our website www.evansvanodine.co.uk) Technical Advice - 8.30am to 4.45pm - |
| | 01772 318 818 - Mon to Fri |
| SECTION 2: Hazards identific | ation |
| 2.1. Classification of the subst | ance or mixture |
| Classification (EC 1272/2008) | |
| Physical hazards | Aerosol 1 - H222, H229 |
| Health hazards | Not Classified |
| Environmental hazards | Not Classified |
| 2.2. Label elements | |
| Pictogram | |
| | |
| Signal word | Danger |
| Hazard statements | H222 Extremely flammable aerosol. |
| | H229 Pressurised container: may burst if heated |
| | |
| | |

| Precautionary statements | P102 Keep out of reach of children. P260 Do not breathe spray. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P211 Do not spray on an open flame or other ignition source. P251 Do not pierce or burn, even after use. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 If eye irritation persists: Get medical advice/ attention. P370+P378 In case of fire: Use foam, carbon dioxide, dry powder or water fog to extinguish. P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. |
|--------------------------|---|
| | P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. P501 Dispose of contents/ container in accordance with local regulations. |

2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB. CAUTION: Use only as directed. AEROSOL: Spraying in a horizontal or inverted position may release flammable propellant. Deliberate inhalation abuse could be fatal in extreme cases. Cans may rupture if heated to excess. Direct eye contact may cause irritation.

SECTION 3: Composition/information on ingredients

| 3.2. Mixtures | |
|--|---|
| BUTANE | 15-20% |
| CAS number: 106-97-8 | EC number: 203-448-7 |
| | |
| Classification Flam. Gas 1 - H220 | |
| Press. Gas | |
| DISTILLATES (PETROLEUN KEROSINE - UNSPECIFIED | /), HYDROTREATED LIGHT; 15-20% |
| CAS number: 64742-47-8 | EC number: 265-149-8 |
| Classification Asp. Tox. 1 - H304 | |
| The Full Text for all R-Phrase | s and Hazard Statements are Displayed in Section 16. |
| Composition comments | The ingredients are present in non-hazardous to health concentrations. |
| SECTION 4: First aid measure | es |
| 4.1. Description of first aid me | pasures |
| Inhalation | Move affected person to fresh air at once. Get medical attention if any discomfort continues. |
| Ingestion | Do not induce vomiting. Give plenty of water to drink. Get medical attention if any discomfort continues. |
| Skin contact | Wash with plenty of water. |
| Eye contact | Rinse immediately with plenty of water. Get medical attention if irritation persists after washing. |
| 4.2. Most important symptoms and effects, both acute and delayed | |
| General information | The severity of the symptoms described will vary dependent on the concentration and the length of exposure. |

| Inhalation | No specific symptoms known. | |
|---|---|--|
| Ingestion | No specific symptoms known. But - May cause discomfort if swallowed. | |
| Skin contact | No specific symptoms known. But prolonged or excessively repeated skin contact could lead to removal of natural oils from skin. | |
| Eye contact | No specific symptoms known. Prolonged contact may cause redness and/or tearing. | |
| 4.3. Indication of any immedia | te medical attention and special treatment needed | |
| Notes for the doctor | Treat symptomatically. | |
| SECTION 5: Firefighting measurements | sures | |
| 5.1. Extinguishing media | | |
| Suitable extinguishing media | Extinguish with the following media: Use foam, carbon dioxide, dry powder or water fog to extinguish. | |
| 5.2. Special hazards arising fr | om the substance or mixture | |
| Specific hazards | Thermal decomposition or combustion products may include the following substances: Irritating gases or vapours. May explode when heated or when exposed to flames or sparks. | |
| 5.3. Advice for firefighters | | |
| Special protective equipment for firefighters | Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Keep containers cool by spraying with water to reduce explosion risks. | |
| SECTION 6: Accidental release | se measures | |
| 6.1. Personal precautions, protective equipment and emergency procedures | | |
| | | |
| Personal precautions | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) | |
| Personal precautions 6.2. Environmental precaution | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) | |
| | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) | |
| 6.2. Environmental precaution | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. | |
| 6.2. Environmental precaution Environmental precautions | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. | |
| 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. Containment and cleaning up Small Spillages: Flush contaminated area with plenty of water. Large Spillages: Absorb spillage with inert, damp, non-combustible material. Flush contaminated area with plenty of water. | |
| 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for Methods for cleaning up | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. Containment and cleaning up Small Spillages: Flush contaminated area with plenty of water. Large Spillages: Absorb spillage with inert, damp, non-combustible material. Flush contaminated area with plenty of water. | |
| 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for Methods for cleaning up 6.4. Reference to other section | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) S Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. Containment and cleaning up Small Spillages: Flush contaminated area with plenty of water. Large Spillages: Absorb spillage with inert, damp, non-combustible material. Flush contaminated area with plenty of water. Ns For personal protection, see Section 8. | |
| 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for Methods for cleaning up 6.4. Reference to other section Reference to other sections | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. Containment and cleaning up Small Spillages: Flush contaminated area with plenty of water. Large Spillages: Absorb spillage with inert, damp, non-combustible material. Flush contaminated area with plenty of water. So present protection, see Section 8. Prage | |
| 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for Methods for cleaning up 6.4. Reference to other section Reference to other sections SECTION 7: Handling and store | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. Containment and cleaning up Small Spillages: Flush contaminated area with plenty of water. Large Spillages: Absorb spillage with inert, damp, non-combustible material. Flush contaminated area with plenty of water. So present protection, see Section 8. Prage | |
| 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for Methods for cleaning up 6.4. Reference to other section Reference to other sections SECTION 7: Handling and store 7.1. Precautions for safe handling Usage precautions | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. Containment and cleaning up Small Spillages: Flush contaminated area with plenty of water. Large Spillages: Absorb spillage with inert, damp, non-combustible material. Flush contaminated area with plenty of water. Is For personal protection, see Section 8. Prage | |
| 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for Methods for cleaning up 6.4. Reference to other section Reference to other sections SECTION 7: Handling and store 7.1. Precautions for safe handling Usage precautions | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. Containment and cleaning up Small Spillages: Flush contaminated area with plenty of water. Large Spillages: Absorb spillage with inert, damp, non-combustible material. Flush contaminated area with plenty of water. Ms For personal protection, see Section 8. Mrage Eliminate all sources of ignition. Avoid inhalation of vapours and spray/mists. | |
| 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for Methods for cleaning up 6.4. Reference to other section Reference to other sections SECTION 7: Handling and store 7.1. Precautions for safe hand Usage precautions 7.2. Conditions for safe storage | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. containment and cleaning up Small Spillages: Flush contaminated area with plenty of water. Large Spillages: Absorb spillage with inert, damp, non-combustible material. Flush contaminated area with plenty of water. ns For personal protection, see Section 8. rage lling Eliminate all sources of ignition. Avoid inhalation of vapours and spray/mists. ge, including any incompatibilities | |
| 6.2. Environmental precaution Environmental precautions 6.3. Methods and material for Methods for cleaning up 6.4. Reference to other section Reference to other sections SECTION 7: Handling and store 7.1. Precautions for safe hand Usage precautions 7.2. Conditions for safe storage Storage precautions | If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. No smoking, sparks, flames or other sources of ignition near spillage. No special protective clothing. (See Sec 8) Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. containment and cleaning up Small Spillages: Flush contaminated area with plenty of water. Large Spillages: Absorb spillage with inert, damp, non-combustible material. Flush contaminated area with plenty of water. ns For personal protection, see Section 8. rage lling Eliminate all sources of ignition. Avoid inhalation of vapours and spray/mists. ge, including any incompatibilities | |

8.1. Control parameters

Occupational exposure limits

BUTANE

Long-term exposure limit (8-hour TWA): WEL 600 ppm 1450 mg/m³ Short-term exposure limit (15-minute): WEL 750 ppm 1810 mg/m³ Carc WEL = Workplace Exposure Limit Carc = Capable of causing cancer and/or heritable genetic damage.

8.2. Exposure controls

| Appropriate engineering controls | This product must not be handled in a confined space without adequate ventilation. |
|----------------------------------|--|
| Eye/face protection | No specific eye protection required during normal use. |
| Hand protection | Hand protection not required. |
| Other skin and body protection | None required. |
| Respiratory protection | Respiratory protection not required. |

SECTION 9: Physical and Chemical Properties

| 9.1. Information on basic phys | 9.1. Information on basic physical and chemical properties | |
|--|---|--|
| Appearance | Aerosol. | |
| Colour | White. | |
| Odour | Characteristic. | |
| рН | Not applicable. | |
| Melting point | Not applicable. | |
| Initial boiling point and range | Not applicable. | |
| Flash point | < 0°C . Measured using test method, CC (Closed cup). | |
| Vapour pressure | 3 bar @ 20°C | |
| Relative density | 0.870 @ 20°C | |
| Solubility(ies) | Soluble in water. | |
| 9.2. Other information | | |
| Other information | None. | |
| SECTION 10: Stability and reactivity | | |
| 10.1. Reactivity | | |
| Reactivity | There are no known reactivity hazards associated with this product. | |
| 10.2. Chemical stability | | |
| Stability | No particular stability concerns. | |
| 10.3. Possibility of hazardous reactions | | |
| Possibility of hazardous reactions | See sections 10.1,10.4 & 10.5 | |

| 10.4. Conditions to avoid | |
|---------------------------------------|--|
| Conditions to avoid | Avoid heat, flames and other sources of ignition. |
| 10.5. Incompatible materials | |
| Materials to avoid | No specific material or group of materials is likely to react with the product to produce a hazardous situation. |
| 10.6. Hazardous decompositio | in products |
| Hazardous decomposition products | Cans may rupture in a fire with the release of flammable propellant. |
| SECTION 11: Toxicological int | formation |
| 11.1. Information on toxicologi | cal effects |
| Toxicological effects | We have not carried out any animal testing for this product. Any ATE figures quoted below are from Toxicity Classifications that have been carried out using ATE (Acute Toxicity Estimate) Calculation Method using LD50 or ATE figures provided by the Raw Material Manufacturer. |
| Other health effects | Low oral toxicity, but ingestion may cause irritation of the gastro-intestinal tract. Deliberate inhalation abuse could prove fatal in extreme circumstances. |
| Acute and chronic health hazards | Deliberate inhalation abuse could prove fatal in extreme cases. |
| SECTION 12: Ecological Inform | mation |
| Ecotoxicity | Not regarded as dangerous for the environment. No chlorofluorocarbons (CFC's) are present. |
| 12.1. Toxicity | |
| Toxicity | We have not carried out any Aquatic testing, therefore we have no Aquatic Toxicity Data specifically for this product. The Aquatic Toxicity Data, where provided by the raw material manufacturer for ingredients with aquatic toxicity, can be made available on request. |
| 12.2. Persistence and degradability | |
| Persistence and degradability | This product, at use dilutions, is readily broken down in biological effluent treatment plants. |
| 12.3. Bioaccumulative potentia | <u>al</u> |
| Bioaccumulative potential | The product does not contain any substances expected to be bioaccumulating. |
| 12.4. Mobility in soil | |
| Mobility | Not known. |
| 12.5. Results of PBT and vPvE | 3 assessment |
| Results of PBT and vPvB assessment | This product does not contain any substances classified as PBT or vPvB. |
| 12.6. Other adverse effects | |
| Other adverse effects | Not known. |
| SECTION 13: Disposal considerations | |
| 13.1. Waste treatment methods | |
| Disposal methods | Empty containers must not be punctured or incinerated because of the risk of an explosion. |

local Waste Disposal Authority.

Dispose of waste to licensed waste disposal site in accordance with the requirements of the

SECTION 14: Transport information

| 14.1. UN number | • |
|-----------------|---|
|-----------------|---|

| UN No. (ADR/RID) | 1950 |
|-----------------------------------|-----------------------------|
| UN No. (IMDG) | 1950 |
| UN No. (ICAO) | 1950 |
| 14.2. UN proper shipping name | <u>e</u> |
| Proper shipping name (ADR/RID) | AEROSOLS |
| Proper shipping name (IMDG) | AEROSOLS |
| Proper shipping name (ICAO) | AEROSOLS, FLAMMABLE |
| 14.3. Transport hazard class(e | <u>s)</u> |
| ADR/RID class | Class 2: Gases. |
| ADR/RID classification code | 5F |
| ADR/RID label | 2.1 |
| IMDG class | Class 2.1: Flammable Gases. |
| ICAO class/division | Class 2.1: Flammable Gas. |

Transport labels

14.4. Packing group

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

EmS F-D, S-U

Tunnel restriction code (D)

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not relevant. for a packaged product. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

| EU legislation | Safety Data Sheet prepared in accordance with REACH Commission Regulation (EU) No |
|----------------|--|
| | 2015/830 (which amends Regulation (EC) No 453/2010 & 1907/2006). |
| | The product is as classified under GHS/CLP- Regulation (EC) No 1272/2008 classification, |
| | labelling & packaging of substances & mixtures. |
| | Ingredients are listed with classification under GHS/CLP - Regulation (EC) No 1272/2008 |
| | classification, labelling & packaging of substances & mixtures. |
| | EC Aerosol Directive. |

15.2. Chemical safety assessment

No chemical safety assessment has been carried out as not applicable as this product is a mixture.

SECTION 16: Other information Abbreviations and acronyms PBT: Persistent, Bioaccumulative and Toxic substance. used in the safety data sheet vPvB: Very Persistent and Very Bioaccumulative. ATE: Acute Toxicity Estimate. ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road. IMDG: International Maritime Dangerous Goods. ICAO-TI: Technical Instructions for the Safe Transport of Dangerous Goods by Air. REACH: Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) No 1907/2006. GHS: Globally Harmonized System. **Classification abbreviations** Acute Tox. = Acute toxicity and acronyms Flam. Gas = Flammable gas Press. Gas, Compressed = Gas under pressure: Compressed gas General information AEROSOL CAUTION: Pressurised container. Protect from sunlight. Do not expose to temperatures exceeding 50 °C. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Keep out of the reach of children. Keep away from sources of ignition - no smoking. Key literature references and Material Safety Data Sheet, Miscellaneous manufacturers. CLP Class - Table 3.1 List of sources for data harmonised classification and labeling of hazardous substances. ECHA - C&L Inventory database. Calculation Method. **Classification procedures** according to Regulation (EC) 1272/2008 **Revision** comments Safety Data Sheet amended in accordance with REACH Commission Regulation (EU) No 2015/830 amendment. (Changes to Sections 2,3,15&16) **Revision date** 01/08/2017 Revision 6 SDS status The Hazard Statements listed below in this Section No 16 relate to the Raw Materials (Ingredients) in the Product (as listed in Section 3) and NOT the product itself. For the Hazard Statements relating to this Product see Section 2. Hazard statements in full H220 Extremely flammable gas. H222 Extremely flammable aerosol. H229 Pressurised container: may burst if heated H304 May be fatal if swallowed and enters airways.
