

Vanoquat®

Formulated quaternary disinfectant

Detergent disinfectant for the food process & animal husbandry industries. Ideal for single or two-stage clean & disinfection programmes.

Effective against a wide range of pathogenic micro-organisms.

Blended detergent/disinfectant for hygiene sensitive areas.

- Passes European disinfectant test methods. Bactericidal; passes EN 1276. Yeasticidal; passes EN 1650.
- May be applied at ambient or elevated temperatures by brushing, soaking, spraying or fogging.
- Effective all water conditions.

FOOD PROCESS INDUSTRY

For use in the food process industry, Vanoquat® should be applied at a dilution rate of 1.0% v/v (10 ml per litre).

SINGLE STAGE CLEAN AND DISINFECT:

Gross soiling should be removed before applying the solution by clean cloth, brush or by immersion. Leave for 5-15 minutes then rinse with clean, potable water.

TWO STAGE CLEAN AND DISINFECT:

Following thorough cleaning using a suitable detergent and rinsing with clean water, Vanoquat® should be applied by clean cloth, brush, immersion or high- or low-pressure spray. Leave for 5-15 minutes then rinse with clean, potable water.

ANIMAL HUSBANDRY INDUSTRY

For use in the animal husbandry industry, Vanoquat® should be applied at a dilution rate of 2.0% v/v (20 ml per litre).

TWO STAGE CLEAN AND DISINFECT:

Following through cleaning using a suitable detergent and rinsing with clean water, Vanoquat® should be applied by clean cloth, brush, immersion or high- or low-pressure spray. Allow to air dry.

FOGGING:

In highly hygiene sensitive areas, atmospheric fogging may be used as an additional hygiene step. Vanoquat® should be applied through suitable fogging equipment. For effective disinfection 2-3 litres of solution should be atomised per 100m³ of air.

25l

Order Code: A038KEV

Pack: 25 litre (35.77 kg)

Pallet: 24 Each

PRODUCT INFORMATION:

Appearance: Clear colourless liquid
Odour: Unperfumed
pH - undiluted: 13.3
Shelf life: 3 years

COMPOSITION: Contains a blend of quaternary ammonium compound, sequestering agent & nonionic surfactant.

BIODEGRADABILITY: All surfactants used in Evans Vanodine products comply with the current European Regulations concerning biodegradability & protection of the environment.

QUALITY ASSURANCE: This product is manufactured in the U.K. by EVANS VANODINE INTERNATIONAL PLC under an ISO 9001 Quality Management System Cert. No. FM 09535 and an ISO 14001 Environmental Management System Cert. No. EMS 506072 registered by the British Standards Institution.
