

Handsan™

Alcohol based hygienic hand rub with moisturiser

Quick acting and highly effective alcohol based hand sanitiser. Kills bacteria & enveloped viruses. Rapidly evaporates from hands without leaving a residue or odour.

Passes EN 1276 with a 30 second contact time.
Passes EN 1500 & EN 13727.

Contains 70% alcohol.
Added glycerine to help protect the skin.

- Will disinfect hands after washing or wherever soap & water are not readily available.
- Recommended wherever food is handled, prepared or served.
- Ideal for in between patient contact in non-surgical medical care establishments.
- Passes EN 14476 with a 60 second contact time against *Vaccinia virus*.
- Suitable for use against enveloped viruses including *Human Immunodeficiency Virus (HIV)*, *Influenza Virus*, *Herpesvirus* & *Hepatitis B*.
- Available in a choice of pack sizes to meet a variety of requirements.
- The handy 75 ml bottle comes complete with a clip attachment.

DISINFECTING HANDS:

Apply small amount (approximately 3 ml) to palms & spread over hands & wrists, paying special attention to cuticles & creases in the skin. Rub in well until skin is dry.

- No need to dry hands, product will evaporate leaving skin refreshed & sanitised.
- Not suitable for use on hands with cuts or grazes, or on damaged skin.
- Avoid spilling or splashing on clothes or fabrics.
