TILED WET FLOOR AREA RESTORATION GUIDE

EQUIPMENT

- Always read, understand & adhere to label instructions
- Always wear personal protective equipment when recommended
- Always read Safety Data Sheets and risk assessments before commencing task

PROCESS

<p>1. Put out wet floor sign</p>	<p>2. Dilute Hi-Phos 1:10 with clean water in bucket. For heavy scale use product neat.</p>	<p>3. Apply solution to floor with deck scrub, mop or doodlebug applicator.</p>	<p>4. Allow contact time of upto 15 minutes. Do not allow solution to dry out.</p>
<p>5. Agitate & scrub entire surface with deck scrub or doodlebug.</p>	<p>6. Rinse with clean, fresh water & use squeegee to dry the floor.</p>	<p>7. Repeat application if necessary, if there is heavy scale build up.</p>	<p>8. Tiled floor, showing before and after cleaning.</p>
